Age:	Goal Date for Postsecondary Training:
Expected Date of Graduation:	Number of Credits to Graduation:

Self-Assessment

What are Activities or Hobbies that make you happy? When you don't have school, work, or other responsibilities.	If you could have any job in the world what would it be? Or are there jobs or careers that you are curious about?
At this moment, do you see yourself going to college or pursuing some sort of training after earning your diploma? If yes, how do you think college or vocational training will help you work towards your future career?	Does the idea of college or vocational training sound exciting, scary, intimidating, hard, fun, challenging, or rewarding?

Tell me about a time you felt positive about school? For example you got a good grade on a project, or you really enjoyed a particular class.	Do you enjoy going to school and being in the classroom? If so, what makes being in a classroom an enjoyable experience? Or what makes it not enjoyable?
Do you enjoy working with your hands and working outside? Examples of these jobs would be Construction or a Plumber.	Will you be working while going to school? If so, how will you manage to do both?

Career Exploration— Using California Career Zone and My Next Move

You can choose which assessment you what to take.... or you can take all 4.
